

Searching For Your New Home ?

There are hundreds of websites out there advertising students homes.

What to check for:

- Is the house furnished or unfurnished? - unless you've got a few beds lying around furnished is generally more appropriate.
- Are bills included? - some properties will have some bills included but not others.
- Is the whole house being advertised or just a room?
- Is there parking?
- Is there a washing machine, dryer, dishwasher, oven, fridge/freezer, microwave, kettle etc - what is provided will vary hugely so it's important to work out what your group want.

Contacting the landlord/agent:

- Where phone numbers are given it's always better to call directly.
- Some sites will have inbuilt forms to contact landlords/agents. These can come with signing up for unwanted emails so check for tick boxes!

Remember different sites will advertise properties at different times so keep checking back!
